

DOMUS

DOMUSTOKEN

The Domus Cripto site focuses on the security and sustainable growth of cryptocurrencies. It features an AntiSCAM system to prevent fraud and rug pulls, with liquidity locked for 100 years. The platform offers contract-linked raffles, an affiliate program, and bonuses for video confirmations. Regular injections into the chart on the 1st and 15th of each month help attract new investors. The project also includes the creation of a decentralized exchange and broadband internet services.

The Domus project aims to establish internet networks and providers in every state of Brazil, followed by expansion into various cities across the country. It plans to acquire established providers with extensive customer bases to consolidate its market presence. Our cryptocurrency, DOMUS, will be used as a means of exchange and payment, offering discounts on monthly subscriptions, fiber optic acquisitions, dedicated links, and more.

DOMUS Tokenomics Distribution

- 90% will be managed by the ANTISCAM contract.
- 9% allocated to raffles, embedded and controlled by the contract.
- 1% for payments to affiliates, YouTubers, and project partners.
- 50% of all tokens will be burned.
- 100% of raffle tokens will be burned.

****Note:**** All team and CEO tokens were purchased. No team member or CEO holds free tokens in their wallets.

DOMUS Benefits and Unique Features

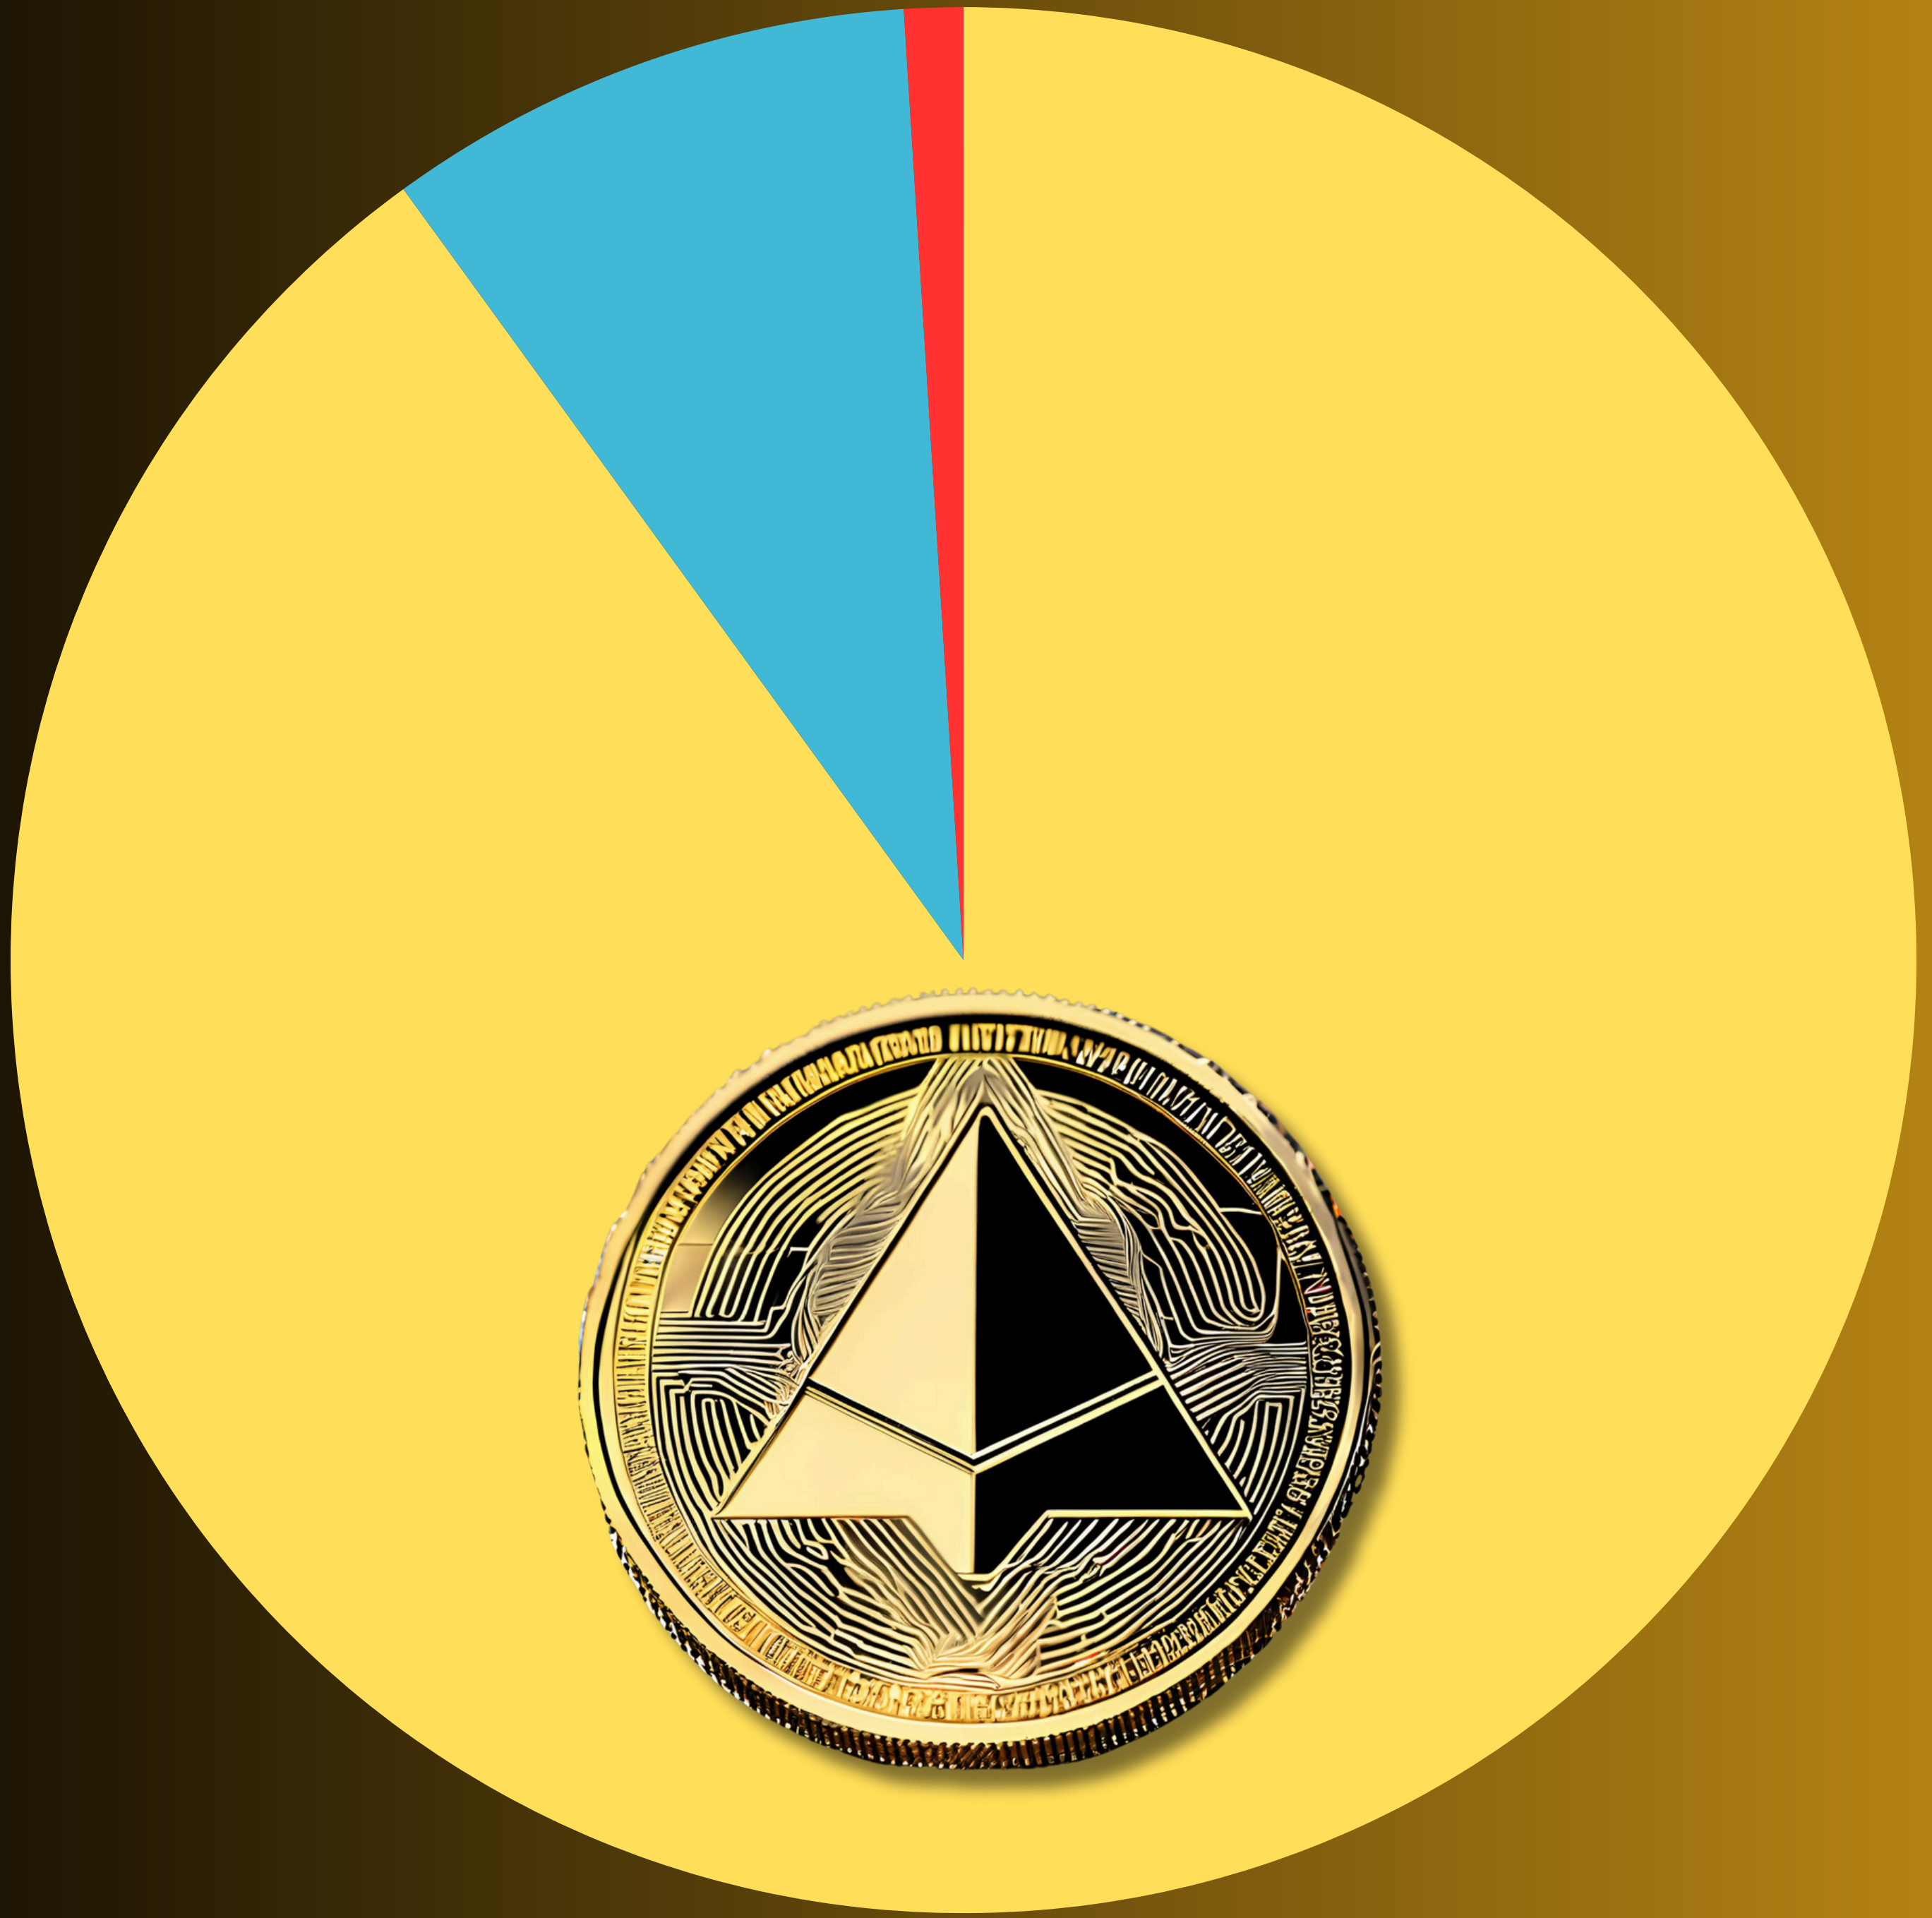

1. **Linked to ANTISCAM Contract: impossible to scam.**
2. **Renounced Contract: ensures security and transparency.**
3. **Fixed Fees: 0% for purchases and 10% for sales, permanently.**
4. **Regular Injections: into the chart on the 1st and 15th of every month.**
5. **Blockchain Raffle: automated draws with no human intervention, numbers 1-100 paying 50x the stake. Fixed \$10 per number in BNB, running continuously until 9% of total supply is exhausted.**
6. **Staking: 1% daily yield, allowing withdrawal of DOMUS tokens at any time.**
